D'AUTRES SONT D'ACCORD ?

Y a-t-il d'autres sites qui parlent de ces faits ? Quelles sources citent-ils ?

EST-CE DE L'HUMOUR ?

Si c'est trop extravagant, est-ce une satire ? Vérifier la vocation du site.

HOW TO SPOT FAKE NEWS

CONSIDER THE SOURCE

Is there an author? Check out their credentials on relevant issues.

READ BEYOND

SUPPORTING SOURCES?

Click on links or check with official sources. Do they support the story?

DO OTHERS AGREE?

Are any other sites reporting this? What sources are they citing?

IS IT A JOKE?

If it is too outlandish, it might be satire. Research the source to be sure.

CHECK YOUR BIASES

Consider if your own beliefs or concerns could affect your judgement.

ASK THE EXPERTS

Ask a librarian, or consult a fact-checking site, official source like the WHO.

LOOK BEFORE YOU SHARE

Don't share posts or stories that you haven't checked out first!

IFLA joins organisations globally in calling for COVID TRIPS waiver to facilitate research, education and cultural participation

25 March 2021

IFLA has joined with partners in signing a call for World Trade Organization Members to make it clear that where intellectual property rights make it more difficult to tackle COVID-19 and its consequences, governments should be able to take steps to enable use of protected works.

The COVID-19 pandemic has raised important questions about the appropriateness of existing intellectual property regimes to deliver on key public interest goals.

What do people lose when they have to stay at home?

- *Social connections, leisure activities?*
- *A sense of accomplishment, purpose, mental well-being?*
- *Livelihoods, jobs, the security of a regular income?*

Losing any combination of these things is deeply personal experience, varying from individual to individual, but also reflect a larger picture of social welfare.

For International Museum Day 2021 (18 May), the International Council of Museums (ICOM) has invited their community to create, imagine and share new practices and innovative solutions to present challenges under the theme: “[The Future of Museums: Recover and Reimagine](#)”.

GLAMs (galleries, libraries, archives, and museums) have been self-evaluating over the past year perhaps more than ever before. The acute challenges of the COVID-19 pandemic, which resulted in many institutions temporarily closing their doors, has driven professionals in the sector to look to the future for new
